Jeffrey

The American Chemistry Council's Ethylene Glycol Ethyl Ether and Ethylene Glycol Methyl Ether Task Group (EE-EM TG) which comprises of producers in the US, Europe and Japan will be sponsoring 2-methoxyethanol (EGME) in the ICCA program via the use of the WHO CICAD which is currently close to finalization.

Best regards

Sue

Subject: Fw: Removal from

the 55th ITC List

Dear Susan Lewis,

As a follow-up to your letter (below) last month regarding sponsorship of CAS# 109-86-4 (2-methoxyethanol) , would you please simply respond to this email to officially state that your organization will sponsor the chemical in the ICCA HPV Initiative? We will then officially record your email response at EPA, ask ACC's Steve Russell to confirm the sponsorship, and then be able to remove the chemical from our Orphan Chemicals list of unsponsored chemicals.

Thank you for your time and attention.

Sincerely,
Jeffrey A. Taylor
